

GEOLOGISKA FÖRENINGENS I STOCKHOLM FÖRHANDLINGAR

ISSUED QUARTERLY BY THE GEOLOGICAL SOCIETY OF SWEDEN

EDITOR: CHRISTINA FRANZÉN BENGTSON

VOLUME 106 · 1984

GFF

REDAKTIONSTJÄNSTEN (FRN) · STOCKHOLM

CONTENTS

- 1 Palm, H.: Time-delay interpretation of seismic refraction data in the Caledonian front, Jämtland, central Scandinavian Caledonides
 - 15 Johansson, Å.: Geochemical studies on the Boda Pb–Zn deposit in the Siljan astrobleme, central Sweden
 - 27 Piispanen, R. & Hoepfner, U.: Sulphur isotope geochemistry of a spilitic pyrite mineralization in Kuusamo, northeastern Finland
 - 33 Schweda, P. & Johansson, Å.: Isotopic composition of ore lead in the Pb–Zn deposits of the Dorotea district, central Swedish Caledonides
 - 41 Welin, E. & Lundqvist, T.: Isotopic investigations of the Nordingrå rapakivi massif, north-central Sweden
 - 51 Hålenius, U.: The crystal field spectra of Mn^{3+} in chlorite
 - 59 Miskovsky, K.: The stratigraphic position of the intrusive rocks of Umeå, northern Sweden
 - 67 Öhlander, B.: Proterozoic molybdenite occurrences in northern Sweden – derived from acid volcanics or granites?
 - 73 Lopez-Montano, R.: Stilpnomelane and associated minerals in the Hällefors dolerite dyke, south central Sweden
 - 81 Björck, S.: Bio- and chronostratigraphic significance of the Older Dryas Chronozone – on the basis of new radiocarbon dates
 - 93 Schallreuter, R. E. L.: Middle Ordovician ostracodes from Sweden
 - 101 Wahlström, R.: Seismicity of Sweden 1963–1983
 - 105 Åhäll, I.: Pillow lava on the Stora Le-Marstrand formation, southwestern Sweden
 - 109 Vollmer, F. W., Wright, S. F. & Hudleston, P. J.: Early deformation in the Svecokarelian greenstone belt of the Kiruna iron district, northern Sweden
 - 119 Larson, S. Å., Olkiewicz, A., Ahlbom, K. & Ålander, C.: A tentative model of the Taavinunna gabbro – results from a core-drilling
 - 127 Tullborg, Eva-Lena, & Larson, S. Å.: $\delta^{18}O$ and $\delta^{13}C$ for limestones, calcite fissure infillings and calcite precipitates from Sweden
 - 131 Vivallo, W.: The origin of the early Proterozoic supracrustal rocks in the Garpenberg district, south central Sweden
 - 151 Hedström, P.: Geological and genetic aspects of the Hällefors sulfide ores, Bergslagen, Sweden
 - 167 Öhlander, B.: Geochemical analyses of rocks of the Haparanda suite, northern Sweden
 - 171 Åberg, G. & Fredriksson, G.: Radiometric dating of the postorogenic Järna granite, south central Sweden
 - 175 Dunn, P. J., Peacor, D. R., Simmons, W. B. & Gaines, R. V.: Sverigeite, a new tin beryllium silicate mineral from Långban, Värmland, Sweden
 - 179 Nordström, Kerstin: The Lagnäset Gully at the Öreälven River, northern Sweden
 - 185 Hamilton, B. M.: The contribution of Gustaf Linnaeus to British stratigraphic geology
 - 193 Guy-Ohlson, Dorothy: Albian biostratigraphy of the Sixtorp Bore No. 1, north-east Scania, Sweden
 - 209 Åberg, G. & Strömberg, A. G. B.: Radiometric dating of Svecokarelian metarhyolites and prekinematic granitoids from Bergslagen, south central Sweden
 - 215 Wickman, F. E. & Nyström, J. O.: The Proterozoic rock pebbles of the basal Ordovician conglomerate in the Siljan Ring structure and their significance
 - 219 Frietsch, R.: Formation of Mg-bearing magnetite and serpentine in skarn iron ores in northern Sweden
 - 231 Parnell, J.: The distribution of uranium in kolm: evidence from backscattered electron imagery
 - 235 Selkman, S. O.: A deformation study at the Saxberget sulfide deposit, Sweden
 - 245 Nysten, P. & Annersten, H.: The gold mineralization at Enåsen, central Sweden
 - 257 Vivallo, W.: The metamorphism of the supracrustal rocks at Garpenberg, south central Sweden
 - 269 Sundblad, K. & Gee, D. G.: Occurrence of a uraniferous–vanadiniferous graphitic phyllite in the Köli Nappes of the Stekenjokk area, central Swedish Caledonides
 - 275 Pässe, T.: Cotton wool filtering for pollen enrichment
 - 279 Cooper, R. A. & Lindholm, K.: The phylogenetic relationships of the graptolites *Tetragraptus phyllograptoides* and *Pseudophyllograptus cor*
 - 297 Johansson, Å.: Carbon, oxygen and sulfur isotope composition of minerals from the Variscan lead–zinc–fluorite veins of southeast Skåne, southern Sweden
 - 305 Eriksson, G. & Kieft, K.: Regional zoning and metamorphic evolution of the Vindfall Pb–Zn ore, east central Sweden
 - 319 Åberg, G. & Persson, L.: Radiometric dating of Precambrian rocks in Småland, southeastern Sweden
 - 327 Åberg, G., Löfvendahl, R. & Levi, Beatriz: The Götemar granite – isotopic and geochemical evidence for a complex history of an orogenic granite
 - 335 Zilliacus, H.: On the moraine ridges east of Pohjankangas in northern Satakunta, western Finland
 - 347 Donovan, S.: *Ristnacrinus* and the earliest myelodactylid from the Ashgillian Boda Limestone of Sweden
 - 357 Berg-Madsen, V.: The Middle Cambrian of Bornholm, Denmark: A stratigraphical revision of the lower alum shale and associated anthraconites
- Summaries of talks*
- 379 Bergström, J.: Summary of scientific presentations
 - 380 Ahlberg, P.: The Lower Cambrian sequence in Skåne, Sweden
 - 382 Bergström, J.: Strike-slip faulting and Cambrian biogeography around the Tornquist Zone
 - 383 Buchardt, B. & Thorshøj Nielsen, A.: Stable isotope composition of Lower Palaeozoic limestones from Bornholm: Evidence for deep burial diagenesis

- 384 Bylund, G.: Palaeomagnetic aspects on the Tornquist Line
- 386 Gabrielson, J. & Holland, B.: Foraminiferids and their bearing on late Cretaceous sea levels in southern Sweden
- 388 Guy-Ohlson, Dorothy: Current Mesozoic palynological contributions to Project Tornquist
- 388 Kumpas, M.: Seismic interpretation of the Tornquist Zone in Denmark and Sweden
- 389 Larsson, K.: The concealed Palaeozoic of SW Skåne
- 391 Lidmar-Bergström, Karna: Erosion surfaces in southern Sweden
- 392 Lieberkind, Kirsten: Palaeogeography and sedimentology of the Upper Cretaceous and Danian in the Danish area
- 392 Norling, E.: Kimmerian tectonics, stratigraphy and palaeogeography of Skåne
- 394 Pegrum, R. M.: The extension of the Tornquist Zone in the Norwegian North Sea
- 395 Strömberg, A.: Caledonian development on each side of the Tornquist Zone
- 396 Vejbæk, O. V.: Tectonic development of sedimentary basins offshore Bornholm
- 397 Vidal, G.: Lake Vättern

Research notes

- 26 Levi, B., Wickman, F. E. & Åberg, G.: The alteration index, a tool in petrochemistry, isotope geology and ore geology
- 32 Lindström, M.: Do 'white sand crosses' from the Lower Cambrian of Kinnekulle have glendonite affinity?
- 40 Lindström, M.: Ordovician red limestone blackened by modern diffusion of H₂S
- 293 Nysten, P.: Copper arsenides from Harstigen, central Sweden

Debate

- 377 Skiöld, T.: The alteration index, a tool in petrochemistry, isotope geology and ore geology: Comment
- 378 Levi, Beatriz, Wickman, F. E. & Åberg, G.: The alteration index, a tool in petrochemistry, isotope geology and ore geology: Reply

Announcements

- 126 The *Geochronicle* in publication again
- 126 GEOWARE – Geoscience software

Literature reviews

- 50, 58, 80, 92, 100, 108, 150, 170, 178, 206, 214, 268, 278, 292, 295, 304, 318, 326, 334, 346, 398 Books
- 50 Dahlem report

Authors of literature reviewed

- M. G. Basset & W. T. Dean (eds.) 100, M. H. P. Bott 334, Carbon Dioxide Assessment Committee, U. S. National Research Council 295, G. Einsele & A. Seilacher (eds.) 398, E. Flugel 398, G. M. Friedman (ed.) 398, Geologkonsult 278, W. Glen 268, H. D. Holland & M. Schidlowski (eds.) 50, S. B. Idso 296, A. A. Levinson (ed.) 50, R. A. Lyttleton 58, G. de Marsily & D. F. Merriam 80, H. Murawski 92, B. Murray 318, B. Murray, M. C. Malin & R. Greely 92, T. Nilsson 214, H. G. Owen 400, W. W. Parkinson 346, W. R. Phillips & D. T. Griffen 268, C. Pomerol 206, F. Press & R. Siever 207, U. von Rad, K. Hinz, M. Sarnthein & E. Seibold (eds.) 100, E. S. Robinson 150, L. J. Salop 334, R. A. Scrutton & M. Talwani (eds.) 207, S. Seidel & D. Keyes 295, M. Suk 346, D. S. Sutherland (ed.) 108, K. O. Thielman 208, J. R. G. Townshend 170, C. R. Twidale 292, A. Voipio (ed.) 178, M. Widgren 399.

Reviewers

- Ö. Amcoff 50, J. Bergström 50, S. Björck 278, G. Bylund 268, L. Carserud 208, R. Gorbatshev 334, H. Göransson 400, C. Hjort 92, 296, U. Helldén 170, S. Idso 295, L. Kubler 92, B. Kullinger 207, 400, B. Kurtén 214, G. Larsson-Leander 318, K. Lidmar-Bergström 292, A. Lindh 108, M. Lindström 304, J. Lundqvist 326, A. Martinsson 100, 178, P. Möller 150, T. Nilsson 206, E. Olausson 207, 304, S. Saxov 334, D. S. Parasnis 58, O. Stephansson 80, B. Sundquist 398, 399.

Miscellanea

- 379 Summaries of talks given at the symposium on Tornquist Zone geology
